

ADDING LIFE TO CONCRETE AT EVERY LEVEL OF YOUR PROJECT.

With a network of offices and representation throughout Australia, New Zealand and the United Kingdom, **we have over 20 years experience in enhancing concrete's performance** on over 4000 concrete structures.

MARKHAM
adding life to concrete

**YEARS
SOLID** | you can
be sure

When you choose Markham, you're choosing the proven team with a track record of more than 20 years experience enhancing concrete performance on over 4000 concrete structures. Markham's network of offices offers representation throughout Australia, New Zealand and the United Kingdom.

Our range includes concrete sealer options, concrete curing products, concrete waterproofing treatments, moisture barriers, sealers for polished concrete, sealers for pavers, water repellents for concrete, waterstops, waterproofing concrete additives, expansion joints, control joints, concrete crack repair products and reinforcing fibre for concrete.

Markham's team are continually researching and developing products and systems that are more environmentally friendly, cost effective, innovative and of course easier to use.

Markham is not just another product supplier.

We offer solutions for asset owners, architects, civil engineers, concrete layers and readymix suppliers.

CURING FOR NEW CONCRETE

Our curing blanket & unique penetrating spray applied solutions provide internal curing properties in concrete.

CONCRETE SEALERS & WATER REPELLENTS

We offer roller & spray applied, clear and penetrating sealer solutions that are UV stable.

CONCRETE HARDENERS & ANTIDUSTING SPRAY ONS

Our unique penetrating, spray applied solutions are water-borne and 100% non-toxic.

MOISTURE CONTROL UNDER FLOORCOVERINGS

The ultimate penetrating concrete waterproofing treatment, with a 15 year guarantee!

CONCRETE WATERPROOFING & WATERSTOPS

Spray applied penetrating treatments and controlled swell water stops for permanent waterproofing.

ADDITIVES FOR NEW CONCRETE

Multipurpose concrete additives for integral waterproofing, strength enhancement, shrinkage reduction and ease of placement.

CONCRETE MACHINERY

Professional concrete contractors choose our high quality and world leading motorised concrete machinery.

CONCRETE REPAIR & PROTECTION

Markham's unique penetrating, spray applied solutions help halt corrosion in new & existing concrete structures.

FIBRE REINFORCING

Steel fibres for commercial slabs, structural synthetic fibres for heavy duty exterior yards, polypropylene fibres light commercial and residential applications, and cellulose fibres for decorative concrete.

you can be sure

ADDING VALUE TO CONCRETE AT EVERY LEVEL OF YOUR PROJECT.

UNDER FLOOR COVERINGS

Moisture control under floorcoverings & coatings
Use AQURON 2000 spray-on treatment to control moisture related issues (both RH & PH) and provide curing in 1 application

MULTISTOREY

- Spray On Waterproofing**
Use AQURON 2000 waterproofing for upper level concrete decks
- Mix In Waterproofing**
Use AQURON 300 additive for integral waterproofing for upper levels
- Improve Fire Resistance of Concrete Floors**
Reinforce with ULTRAFIBER 500 fibre. Independently proven to improve fire rating of suspended concrete slabs
- Waterproof Insitu Construction Joints**
Use SUPERSWELL 47B controlled swell gasket for construction joints in basements
- Mix In Waterproofing**
Use AQURON 300 additive to improve durability of hard to access piles or foundations
- Anti-Dusting Treatment**
Use AQURON 1000 3-n-1 (hardening, antidusting, curing) for basements & underground carparks, precast walls & concrete ceilings

WORKSHOPS & STAIN RESISTANCE

Improve concrete durability in corrosive environments
Use AQURON 2000 spray-on treatment for internal corrosion protection of concrete slabs

Other Options

- AQURON 1000 & GLOSS POLISH SYSTEM
Concrete treatment with gloss finish
- AQURON 1000 & CRETEPOLISH MAX
Concrete treatment with sheen from day 1
- MARKHAM AQUEPOXY EPOXY PAINT
Coloured coating

PRECAST CONCRETE SEALERS

- Water Repellent**
Use invisible spray-on AQURON 1200 precast & natural stone
- Sealer for Precast**
Use MARKHAM SATIN SEALER for UV stable, satin wet-look finish
- Anti-Graffiti**
Use our range of semi-sacrificial and non-sacrificial roll-on clear coatings

EXTERIOR CONCRETE SEALERS

- Paver & Flagstone Sealer**
Use AQURON PAVESET to seal surface and stabilise joint sand
- Exposed Aggregate**
Reinforce with ULTRAFIBER 500 fibre, expose the surface with CONQOR SR and seal with MARKHAM MASTERSEAL with added traction enhancement or MARKHAM GLOSS SEALER

CONCRETE YARDS

- Reinforcing concrete yards**
Use MARKHAM 47SSF structural synthetic fibre alternative to mesh for commercial yards and pavements
- Durability of concrete yards**
Use AQURON 1000 3-n-1 (hardening, antidusting, curing) for commercial yards and pavements
- Rain damaged concrete**
Use AQURON 3000 concrete treatment for rain damaged and porous concretes

CORROSION PROTECTION

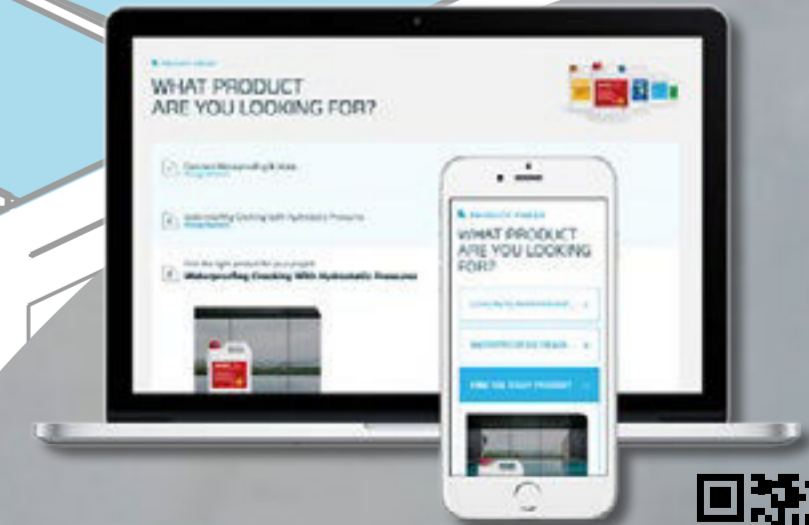

Improve concrete durability in corrosive environments
Use AQURON 2000 spray-on treatment for internal corrosion protection of concrete slabs

LARGE FLOOR SLABS

- Concrete hardener & protection**
Use AQURON 1000 3-n-1 (hardening, antidusting, curing) for warehouse & bulk retail concrete slabs
- Reduce concrete shrinkage**
Use AQURON 300 additive that improves strength, reduces shrinkage and waterproofs
- Pour large floors with large joints**
Use MARKHAM WCR steel fibres and AQURON 300 additive for up to 25x25m jointless slabs with no sawcuts
- Water curing efficiency for large floors**
Use HYDRACURE BLANKET on large floors for ultimate water curing

Other Options

- AQURON 1000 & GLOSS POLISH SYSTEM
Concrete treatment with gloss finish
- AQURON 1000 & CRETEPOLISH MAX
Concrete treatment with sheen from day 1

THE RIGHT SOLUTION FOR THE RIGHT JOB.

AQURON 1000 SPRAY-ON CONCRETE TREATMENT

Ultimate penetrating internal sealer & curing assistance solution

- ✔ A final finish that the "more you use it, the better it gets".
- ✔ Never needs to be re-applied contributing to less maintenance and cost savings.

AQURON 300 ADDITIVE FOR CONCRETE WATERPROOFING

3-n-1 for solution for new concrete

- ✔ Integral Waterproofing - Water Borne Solution with nil solvent, VOC's or carcinogenic ingredients.
- ✔ Reduces shrinkage, while increasing early & ultimate compressive, flexural and tensile strengths.

HYDRACURE CURING BLANKET

Ultimate wet curing for concrete slabs

- ✔ Roll outs flat and stays flatter resulting less discolouration.
- ✔ Moisture is not absorbed into blankets making removal faster and lighter.

CRETEPOLISH MAX IMMEDIATE SURFACE SHEEN

Unique polish solution for concrete floors

- ✔ Floor polish with stain blocking additive. Provides 24-hour stain protection to the most common stain-causing spills.
- ✔ Rejuvenates with dry buffing.

AQURON 7000 SPRAY-ON CONCRETE PROTECTION

for extending life of concrete structures

- ✔ Halt corrosion in existing concrete structures. This a project proven long-term economic solution.
- ✔ Spray applied to new & existing concrete to provide protection against corrosive substances. A more environmentally friendly and user safe option than traditional solvent based products.

MASTERSEAL CONCRETE SEALER

Clear satin sealer for driveways & floors

- ✔ UV stable & wet-look finish.
- ✔ Integral traction enhancement for non-slip.

AQURON 2000 SPRAY-ON CONCRETE WATERPROOFING

Plus hardening, antidusting & internal curing in one solution

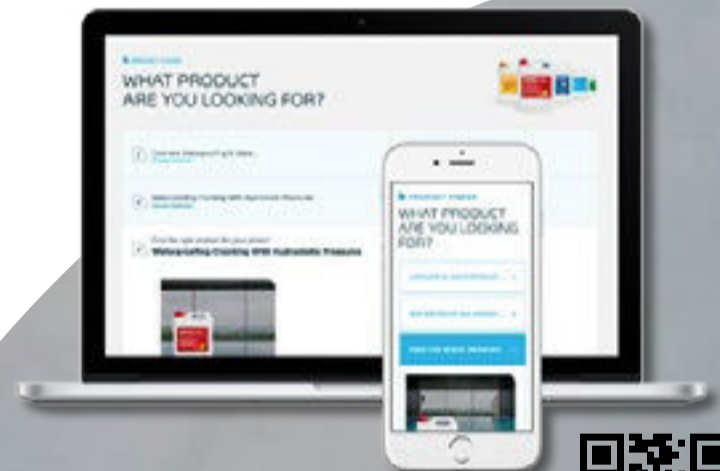

- ✔ Penetrates deeply into new and existing concrete.
- ✔ Never needs to be re-applied contributing to less maintenance and cost savings.

AQURON 2000 CONCRETE MOISTURE PROTECTION

for concrete under floorcoverings plus hardening & curing in one application

- ✔ Guaranteed moisture protection for controlling RH% beneath floorcoverings on concrete slabs.
- ✔ AQURON 2000 is a 2-n-1 application for waterproofing concrete and providing curing & sealing for new concrete with fast track construction time frames.

WHY CHOOSE US?

TECHNICAL SUPPORT

We work with you to find the best approach to suit your project's unique situation. Our team has extensive knowledge about how our products and treatments will perform across a broad range of situations over the long-term.

PROJECT MANAGEMENT

Our proven experience in managing large and small scale projects in the construction and civil sectors means our clients can trust us to deliver the right solution, on time and on budget.

QUALITY CONTROL

Markham has developed a culture of continual improvement at every level of our business, from product R&D to customer service and project management. Quality is paramount.
